

PE & Sport Grant Report

2020 – 2021

Together we learn and grow

PE and Sport Grant 2020-21

The government has provided additional funding to each school annually since 2013 to support and improve the provision of physical education (PE) and sport. For this academic year (2020-21) the DfE have confirmed that they will match the funding provided for the previous three years in order to continue to support high quality provision of sporting opportunities for children in primary schools. The funding is ring-fenced and therefore can only be spent on ensuring that schools make additional and sustainable improvements to the quality of PE and sport they offer, although schools have the freedom to choose how they should do this. Ultimately this means that the premium should be used to:

- develop or add to the PE and sport activities that the school already offers
- make improvements now that are sustainable and will benefit pupils joining the school in future years

Maple Infants' School has received the following PE funding:

- £8750 for 2013/14
- £8895 for 2014/15
- £8810 for 2015/16
- £8810 for 2016/17
- £17,750 for 2017/18
- £17,770 for 2018/19
- £17,750 for 2019/20
- £17,762 has been confirmed for 2020/21

At Maple Infants' School we recognise the contribution of PE to the health and wellbeing of the children. In addition, it is considered that an innovative and varied PE curriculum and extra-curricular opportunities have a positive influence on the concentration, attitude and academic achievement of all children.

We aim to improve the quality and breadth of PE and sport provision by:

- continuing to extend our PE provision and offering a range of PE opportunities for all pupils
- continuing to deliver inclusive high quality PE sessions
- increasing opportunities for pupils to take part in competitive sporting events
- increasing staff confidence and subject knowledge
- updating resources and introducing our children to a wider range of equipment and activities

Below is a table of planned spending for 2020-21.

'Impact' boxes will be completed at the end of this academic year and will review how each area of spending has benefited children and staff at Maple Infants'.

Activity	Aim of provision and expected impact	Impact
<p>Kingston Schools Sports Partnership Membership (KSSP) £576.00</p>	<p>To secure and enrich the quality and breadth of PE and sport provision and to increase participation in PE and Sports so that all pupils develop healthy lifestyles and reach performance levels that they are capable of.</p> <p><i>This will continue to provide the Subject Leader for PE with increased opportunities for CPD and networking with other PE coordinators from across the Kingston borough, including any feeder schools. This will be particularly important following the experiences of lockdown linked to the national pandemic. As lockdown lifts, it is important to us that our pupils are able to re-engage and participate in competitive activities and this will be supported by our local partnership, especially as this is often limited for infant aged children.</i></p>	<p>£290.00</p> <p>Being a part of the Kingston School Sports Partnerships has allowed us to stay in touch with our local schools, share ideas and follow best practice. We have been able to follow the latest updates and guidance around safely teaching PE particularly throughout the pandemic. Our PE lead has attended termly meetings, which have been beneficial for personal development in the role and has allowed key information to be fed back to other members of staff.</p>
<p>Sports coach 1x day a week for Years 1 and 2 £7, 980.00</p>	<p>To secure and enrich the quality and breadth of PE and sport provision and make improvements now that will benefit pupils joining the school in future years.</p> <p><i>Every child within Key Stage 1 will continue to access weekly coaching from Pleiades Leisure which will enhance and develop their skills and enrich the quality and breadth of the provision. This provision had to stop during the national lockdown and it is important that this is re-established once safe to do so. Working alongside a sports coach has helped staff to develop their confidence when teaching PE, so it is important that we continue to embed this confidence and skills. In addition to this the coach will be supporting staff to develop progression within PE teaching and support Maple in reshaping our PE yearly plan to deliver the curriculum in a more effective way; which will support pupils in our school now and in the future.</i></p>	<p>£3,339.00</p> <p>Pleiades weekly coaching took place during our Autumn and Summer terms. Unfortunately, due to the school closures they were not able to take place during the Spring term.</p> <p>Children within Year 1 and 2 took part in a range of high quality teaching units, the children were able to develop their skills and progress in their knowledge and understanding of ball skills, football, basketball, rounder's and athletics. Our children enjoy taking part in the sessions, one child said 'I like that we always do different things and it's not the same thing all the time'. Another child said 'what he plans is fun because it's like jumping or skipping or moving and it can get a bit harder'. Maple staff were able</p>

		to develop their own teaching skills by observing our experienced Pleiades coach, team teaching with him and teaching activities of their own. He was able to provide them with helpful feedback and advice.
<p>PE scheme of work to support class teacher PE lessons. £336.00</p>	<p>To secure and enrich the quality and breadth of PE and sport provision and make improvements now that will benefit pupils joining the school in future years <u>and</u> to increase participation in PE and Sports so that all pupils develop healthy lifestyles and reach performance levels that they are capable of.</p> <p>All KS1 and YR staff can access a quality, inclusive and engaging teaching scheme which promotes mental, emotional and physical wellbeing. We aim for staff to be more confident in the PE lessons they are developing and feel inspired by an array of fresh and new ideas to motivate the children to be happy and healthy. This is particularly important following the national pandemic and the challenges which families have experienced to be active. This programme includes clear planning, child friendly online resources and an emphasis on children working to the best of their own ability.</p>	<p>£280</p> <p>Our chosen resource Get Set 4 PE has been a fantastic tool for us this year as our staff have benefited from the step-by-step lesson plans. Our children have been able to take part in high quality lessons regardless of the experience and subject knowledge of the teachers. Teachers have stated that they feel more confident in their own teaching and are developing their subject knowledge each week. Early Years staff have particularly commented on how age appropriate and engaging the selected themes are. We plan to continue using this resource for another year to continue to develop and grow.</p>
<p>Country Dance participation, including coach. £70 - funds rolled over from last year</p>	<p>To increase participation in PE and Sports so that all pupils develop healthy lifestyles and reach performance levels that they are capable of.</p> <p><i>Increased participation will ensure that our pupils are able to take part in a wider range of sporting activities alongside other Kingston schools. Each year this involves a different group of pupils who get the opportunity to prepare and train for this experience. The children enjoy exploring a type of music and dancing many have not experienced before as well as developing other key skills such as team work, balance, co-ordination and rhythm.</i></p>	<p>Unfortunately, this event did not take place due to the pandemic.</p>

<p>Purchase of PE shed for the playground. £800</p>	<p>To secure and enrich the quality and breadth of PE and sport provision.</p> <p><i>Equipment can be more readily available for staff during their PE lessons and therefore will increase opportunities for outdoor learning. Following the national pandemic and school closures, we want to be able to increase pupil participation and stamina and therefore increased resources and access will support staff to be able to do this as well as encouraging increased engagement.</i></p>	<p>£849.97</p> <p>Staff have found the outside PE shed and the resources list beneficial when trying to access equipment quickly and for organisation purposes. It is helpful for staff to know exactly where equipment is stored and for it to be clearly labelled. This initiative needs to be continued into the next school year to ensure the clear organisation and care of resources.</p>
<p>Variety of resources to update worn out equipment £ 2000</p>	<p>To secure and enrich the quality and breadth of PE and sport provision.</p> <p><i>We will be able to continue to provide high quality PE sessions by ensuring that equipment is up to date, in good quality and safe condition for children to use. This equipment will allow for an increased variety of activities that children can take part in and will be essential in our plans to promote enjoyment and further the physical fitness of our children following the national pandemic.</i></p>	<p>£2243.93</p> <p>We invested in purchasing new resources that would ensure we were completely equipped to teach our new scheme of work. We also had a particular focus in making sure we had enough of each resource to be used in whole class lessons and ensuring the quality of all these resources were to a high level. With the help of other support staff our PE lead was able to sort through the PE cupboard and remove any resources we felt were to worn out or no longer safe for the children to use.</p> <p>We purchased new equipment such as basketballs, footballs, floor markers, hockey sets, dance ribbons, dance scarves, individual skipping ropes, French skipping ropes, play tunnels, crawl gates which provide a broad range of opportunities to support the children to develop their PE skills</p>
<p>Full class set of Gymnastics mats £1300</p>	<p>To secure and enrich the quality and breadth of PE and sport provision.</p>	<p>£1274.25</p> <p>The new gymnastics mats have made a significant difference to our gymnastics</p>

	<p><i>We will be able to continue to provide high quality indoor based PE sessions by ensuring equipment is up to date, in good condition. These mats will ensure their safety and offer a higher level of confidence for children while developing balances, jumps and other movements in their gymnastics and dance abilities.</i></p>	<p>teaching. We now feel confident in the protection the children will be getting when taking part in their indoor lessons and performing movements such as jumps, landing, balances etc.</p>
<p>Teddy Tennis coaching Reception £1200</p>	<p>To secure and enrich the quality and breadth of PE and sport provision and to increase participation in PE and Sports so that all pupils develop healthy lifestyles and reach performance levels that they are capable of.</p> <p><i>The children in Reception will experience high quality tennis sessions which exposes pupils to another sporting activity that will inspire their interest and develop key skills such as balance, co-ordination and core strength. This coaching will be continued for those pupils who attended our Nursery, as they accessed this coaching thanks to the generation donations of the Friends of Maple and their parents. We have recognised how beneficial and enjoyable these sessions were for our Nursery children therefore we decided to continue this development for them into their Reception year.</i></p>	<p>£1500</p> <p>We were lucky enough to have Teddy Tennis return to school this year. In small groups, our Reception classes took part in one Teddy Tennis session a week. The children were really engaged in these sessions due to the fantastic Teddy Tennis staff and the learning through games style of teaching. Throughout the sessions, the children have developed their sportsmanship, confidence, taking turns and listening skills as well as their hand eye coordination, balance, agility and movement skills. We are incredibly proud to equip our children with these key skills as well as sporting abilities.</p>
<p>Children's resources for a school wide scheme to tackle inactivity during the national pandemic. £3,500</p>	<p>To increase participation in PE and Sports so that all pupils develop healthy lifestyles and reach performance levels that they are capable of.</p> <p>We aim to support our children into becoming active and healthy people, with the national pandemic restrictions in place, this has been very difficult for families to achieve; therefore, we have put together a scheme aimed to target children at school and at home. We hope this scheme will motivate and inspire children to want to become more active, to learn and see the benefits of being a healthy person and to seek enjoyment from physical exercise.</p>	<p>£3314.26</p> <p>Our children were excited to take home their own PE equipment bag, this bag consisted of a quoit, a bean bag, a skipping rope, a medium size ball, a tennis racket and a foam tennis ball. Children were encouraged to use the equipment at home and when out to promote the importance of physical activity and being healthy, particularly after the pandemic restricted this for many of our families. Our PE lead received feedback from this initiative via google forms. Parents</p>

		<p>appreciated the gesture from Maple Infants' School. The form indicated that the children used the ideas sheets to organise games with the equipment and some even made up their own games. 100% of those that responded to the google form used their PE bag at home or in the wider community.</p>
<p>Maple staff PE wear £600</p>	<p>To secure and enrich the quality and breadth of PE and sport provision.</p> <p>Staff will be provided with quality sports clothing to be used when teaching PE. This promotes to the children the importance of wearing the correct clothing when taking part in physical activity and enhances the importance of this subject area. They will also be key for staff to wear when taking children to represent Maple at sporting events and to be easily identified at sports day.</p>	<p>£567.23</p> <p>The staff PE clothing has been a positive option for our staffing team and the majority of our staff have opted in to receive a hoodie or polo top. Staff are modelling good practices by wearing appropriate clothing on PE days; this even extends to removing jewellery and having hair tied back. Children are seeing the importance of being safe when taking part in physical activity.</p>
<p>Enrichment activity Tbc</p>	<p>To increase participation in PE and Sports so that all pupils develop healthy lifestyles and reach performance levels that they are capable of.</p> <p>Our community is acutely aware of the challenges which schools and their pupils have faced throughout the last year and continue to face. The safety measures in place have impacted particularly on our ability to provide the wide curriculum enrichment which we typically strive to achieve. We therefore want to provide all children with an enjoyable enrichment activity at the end of the academic year, which will promote being active and using key physical activities in a fun way. We are also acutely aware of the importance that physical activity has on emotional and mental well-being and we aim to use this opportunity to inspire children and their families into continuing to take part in exercise and other enrichment activities during their summer break.</p>	<p>Unfortunately, due to the pandemic we struggled to find an activity that could be run in our school for the children to enjoy. We will look into organising an event for the next school year.</p>

<p>Supply staff to cover the PE lead</p>	<p>To secure and enrich the quality and breadth of PE and sport provision <u>and</u> to increase participation in PE and Sports so that all pupils develop healthy lifestyles and reach performance levels that they are capable of.</p> <p>We aim to give the children at Maple Infants' the best PE experiences that we can therefore it is essential that we put in the time and effort to thoroughly organise what learning they will be taking part in and ensure the equipment they are using is of the best quality. It is important to stay up to date with the newest information and to continue building initiatives that will teach our children to be happy, healthy, people physically, mentally, socially and emotionally.</p>	<p>£1393</p> <p>Our PE lead was able to use some release time from the classroom throughout the year to complete various tasks. She was able to attend the termly meetings, investigate and select our new scheme of work, sort through our old, worn out PE resources, create a list of new resources needed and order them. Our PE lead also spent time putting together each of the Home PE bags, organising our sports day, monitored PE teaching across the school, met with Pleiades and Teddy Tennis staff and collected feedback from our wider community.</p>
<p>£15, 909 carried forward from 2019/20 academic year. Total to spend for 2020/21 = £33,671</p>		
<p>The total spend for academic year so far: £ 16,521.64</p> <p>Remaining budget for 2021/22: £17,149.00</p>
