

PE & Sport Grant Report

2021 – 2022

(with impact)

Together we learn and grow

PE and Sport Grant 2021-22

The government has provided additional funding to each school annually since 2013 to support and improve the provision of physical education (PE) and sport. For this academic year (2021-22) the DfE have confirmed that they will match the funding provided for the previous four years in order to continue to support high quality provision of sporting opportunities for children in primary schools. The funding is ring-fenced and therefore can only be spent on ensuring that schools make additional and sustainable improvements to the quality of PE and sport they offer, although schools have the freedom to choose how they should do this. Ultimately this means that the premium should be used to:

- develop or add to the PE and sport activities that the school already offers
- make improvements now that are sustainable and will benefit pupils joining the school in future years

Maple Infants' School has received the following PE funding:

- £8750 for 2013/14
- £8895 for 2014/15
- £8810 for 2015/16
- £8810 for 2016/17
- £17,750 for 2017/18
- £17,770 for 2018/19
- £17,750 for 2019/20
- £17,762 for 2020/21
- £17,770 for 2021/22

At Maple Infants' School we recognise the contribution of PE to the health and wellbeing of the children. In addition, it is considered that an innovative and varied PE curriculum and extra-curricular opportunities have a positive influence on the concentration, attitude and academic achievement of all children.

We aim to improve the quality and breadth of PE and sport provision by:

- continuing to extend our PE provision and offering a range of PE opportunities for all pupils
- continuing to deliver inclusive high quality PE sessions
- increasing opportunities for pupils to take part in competitive sporting events
- increasing staff confidence and subject knowledge
- updating resources and introducing our children to a wider range of equipment and activities

Below is a table of planned spending for 2021-22.

'Impact' boxes will be completed at the end of this academic year and will review how each area of spending has benefited children and staff at Maple Infants'.

Activity	Aim of provision and expected impact	Impact
<p>Kingston Schools Sports Partnership Membership (KSSP) £290</p>	<p>To secure and enrich the quality and breadth of PE and sport provision and to increase participation in PE and Sports so that all pupils develop healthy lifestyles and reach performance levels that they are capable of.</p> <p><i>This will continue to provide the Subject Leader for PE with increased opportunities for CPD and networking with other PE coordinators from across the Kingston borough, including any feeder schools. This will be particularly important following the experiences of lockdown linked to the national pandemic. We would like to begin taking part in competitive activities again and this will be supported by our local partnership, especially as this is often limited for infant aged children.</i></p>	<p>Being a part of the Kingston School Sports Partnerships has allowed us to stay in touch with our local schools, share ideas and follow best practice. We have been able to follow the latest updates and guidance around safely teaching PE particularly throughout the pandemic. I was able to attend termly meetings, as the Maple PE lead, which have been beneficial for personal development in the role, has ensured Maple are involved in sporting events and has kept us up to date with key information such as sports premium funding, Sport England and Youth Sport Trust updates and goals as well as listening to representatives from schemes such as the School Games Mission, the Girls Football partnership, Street Tag and the London Marathon School Initiatives to enrich the physical education offer for our children.</p>
<p>Pleiades sports coach 1x day a week for Years 1 and 2 £7, 980.00</p>	<p>To secure and enrich the quality and breadth of PE and sport provision and make improvements now that will benefit pupils joining the school in future years.</p> <p><i>Every child within Key Stage 1 will continue to access weekly coaching from Pleiades Leisure, which will enhance and develop their skills and enrich the quality and breadth of the provision. Working alongside a sports coach has helped staff to develop their confidence and subject knowledge when teaching PE, so it is important that we continue to embed this confidence and skills. In addition to this the coach will be supporting staff to develop progression within PE teaching and we would</i></p>	<p>£7,980</p> <p>Once again, we have found the support of Pleiades Coaching to be invaluable. They provide the children with high level, engaging lessons, which carefully break down the skills so that children can clearly develop and improve their own technique, for example, seeing the motion and the explanation of why you may get more power on the ball if you strike from a particular angle etc.</p>

	<p>now like to put into place our new PE yearly plan, to deliver the curriculum in a more effective way; which will support pupils in our school now and in the future.</p>	<p>'Coach Lewis is a good teacher because he knows a lot about all the different sports, and he shows us how to do it. I like when we play rugby, and we protect our ball from our partner because I get so many points and the lessons are so fun.' – Year 2 pupil.</p> <p>To broaden the subject knowledge of the staff around our school we have had our higher-level teaching assistants (HLTA's) attending the sessions with the class and taking part in the CPD training provided to us by our Pleiades coach.</p> <p>'I have learnt so much from the way Lewis explains movements to the children. To have everything broken down so clearly from the position of your body, the dominant hand/foot in use, the low stance to change speed and direction quickly have all become key movements for the children. Knowing these fundamentals myself and being able to develop them within the children allows them to move more naturally and be more in control of their equipment.' – Year 1 class teacher.</p>
<p>PE scheme of work to continue supporting class teacher PE lessons. £280</p>	<p>To secure and enrich the quality and breadth of PE and sport provision and make improvements now that will benefit pupils joining the school in future years <u>and</u> to increase participation in PE and Sports so that all pupils develop healthy lifestyles and reach performance levels that they are capable of.</p> <p>All KS1 and YR staff can continue to access a quality, inclusive and engaging teaching scheme that promotes mental, emotional and physical wellbeing. We aim for staff to be more confident in the PE lessons</p>	<p>£224</p> <p>This year we have trialled the PE scheme of work - GetSet4PE. This has proven to be a well-planned, child friendly programme that is adapted to all age groups. It shows a clear emphasis on developing the skills needed to be physically literate. The lesson plans are easy to follow and implement into lessons ensuring that the</p>

	<p>they are developing and continue to develop their own subject knowledge and pedagogy. We aim for our staff to feel inspired by an array of fresh and new ideas to motivate the children to be happy and healthy. This programme includes clear planning, child friendly online resources and an emphasis on all children working to the best of their own ability.</p>	<p>PE teaching is to a high quality, engaging and covers a wide breadth of skills. In a recent staff survey, 89% of staff agree that the scheme suits the abilities of their class. 100% of staff said the children enjoy the sessions and 88% of staff said that there is clear progression throughout the units, which is developing the children's physical literacy.</p>
<p>Supply staff to cover the PE lead £1000</p>	<p>To secure and enrich the quality and breadth of PE and sport provision and to increase participation in PE and Sports so that all pupils develop healthy lifestyles and reach performance levels that they are capable of.</p> <p>We aim to give the children at Maple Infants' the best PE experiences that we can therefore it is essential that we put in the time and effort to thoroughly organise what learning they will be taking part in and ensure the equipment they are using is of the best quality. It is important for our PE Leader to stay up to date with the newest information and initiatives so that this can be cascaded to all staff and will enable our staff team to confidently teach and support all of our children to be happy, healthy, people physically, mentally, socially and emotionally.</p>	<p>£753.25</p> <p>On occasions, supply staff were used to cover any additional release time needed to complete the duties of being PE subject leader. Some of these duties included writing the PE policy and risk assessments, organising sports day, taking children to a variety of sporting events and attending borough PE meetings and conferences. The impact of this has been that staff subject knowledge and pedagogy has improved and developed as it has meant that we are working from the most up to date policy and being able to enrich our children with a wide range of sporting opportunities to further their skills, confidence, sportsmanship and knowledge of a healthy lifestyle.</p>
<p>Variety of resources to update worn out equipment and to ensure quantity for whole class teaching £ 2000</p>	<p>To secure and enrich the quality and breadth of PE and sport provision.</p> <p><i>We will be able to continue updating our equipment and providing high quality PE session with good quality and safe resources for the children to use. This equipment will allow for an increased variety of activities that children can take part in and will be essential in our plans to promote enjoyment and further the physical fitness of all of our children following the national pandemic.</i></p>	<p>£894.68</p> <p>Each year it is important for us to review our PE resources and dispose of any broken or worn-out pieces of equipment. This year I spent some time replenishing items such as tennis balls, rugby ball and beanbags. A priority this year was to update some of the outside physical provision available for Reception,</p>

		therefore we ordered items such as scooters, pedal rollers and foam breezeblocks. Other resources such as peanut balls and exercise therapy balls were ordered to cater to the individual needs of children with occupational support. This means that the children are using safe, updated equipment, that has been specifically identified as benefiting their current physical needs. This ensures that children are able to access high quality support for their physical development.
Maple staff PE wear £300	<p>To secure and enrich the quality and breadth of PE and sport provision.</p> <p>Staff will continue to be provided with quality sports clothing to be used when teaching PE. This promotes to the children the importance of wearing the correct clothing when taking part in physical activity and enhances the importance of this subject area. They will also be key for staff to wear when taking children to represent Maple at sporting events and to be easily identified at sports day.</p>	<p>£709.59</p> <p>It is essential that staff are modelling safe practice in PE by wearing appropriate clothing on their PE days. New members of staff have been provided with Maple hoodies and polo shirts to enable them to do so. When approaching sports day, a large number of existing staff needed to ensure they had appropriate clothing that would clearly represent Maple Infants' School while on an offsite trip.</p>
Teddy Tennis coaching Reception £3000	<p>To secure and enrich the quality and breadth of PE and sport provision <u>and</u> to increase participation in PE and Sports so that all pupils develop healthy lifestyles and reach performance levels that they are capable of.</p> <p><i>The children in Reception will experience high quality tennis sessions throughout our Spring and Summer terms. Teddy Tennis exposes pupils to another sporting activity that will inspire their interest and develop key skills such as balance, co-ordination and core strength. As well as developing sportsmanship, perseverance, turn taking and listening skills learning a new skill will also support the children to develop their strategies to self-regulate their behaviour.</i></p>	<p>£3450</p> <p>We decided to continue working with Teddy Tennis Coaching this year, as we are very pleased with the developmental skills they provide for the children's physical capabilities. As PE lead, I have observed Teddy Tennis staff deliver these sessions to our Reception classes and found them to be engaging, energetic and resourceful. The children were also observed to be developing their vocabulary by being encouraged to use</p>

		key tennis terms as well as practising other important qualities particularly linked to sportsmanship and teamwork, such as turn taking and perseverance. The children in Reception have shown key development in their gross motor, balance and co-ordination skills.
Refurbishment of the front garden area into a physical trim trail and nature area. Funded partly from the PE budget and partly by the Friends.	<p>To secure and enrich the quality and breadth of PE and sport provision and to increase participation in PE and Sports so that all pupils develop healthy lifestyles and reach performance levels that they are capable of.</p> <p><i>We would love to create another area in our school for our children to enjoy and take part in physical activity as well as developing the aesthetics of our outside area. We aim to create a natural space in which children can challenge their physical abilities such as climbing, landing, balancing and jumping by accessing the trim trail. This space can be a key feature of our school that can cater to the needs of all children and provides an inclusive resource.</i></p>	This initiative will be carried over to the next academic year.
Street tag – getting children active initiative. Tbc	<p>To increase participation in PE and Sports so that all pupils develop healthy lifestyles and reach performance levels that they are capable of.</p> <p><i>We aim to inspire the wider community to take part in more physical activity therefore we are interested in signing Maple Infants' School up to join this event currently being played widely in the Borough of Kingston. This will encourage families to access many of our local parks and play areas so that our students can earn points for our school team.</i></p>	This initiative will be carried over to the next academic year.

<p>Enrichment activity – Indian Dance Workshop</p>	<p>To increase participation in PE and Sports so that all pupils develop healthy lifestyles and reach performance levels that they are capable of.</p> <p><i>Our community is acutely aware of the challenges, which schools and their pupils have faced throughout the last year and continue to face. Previous safety measures in place have affected our ability to provide the wide curriculum enrichment, which we typically strive to achieve. We therefore want to provide all children with an enjoyable enrichment activity, which will promote being active and using key physical activities in a fun way. We are also acutely aware of the importance that physical activity has on emotional and mental well-being and we aim to use this opportunity to inspire children and their families into continuing to take part in exercise and other enrichment activities.</i></p>	<p>£439</p> <p>We were very keen to include enrichment activities into our PE curriculum this year and saw a fantastic opportunity to link this with our RE curriculum as we celebrated Holi Festival. Each of our KS1 classes took part in an energetic Indian dance workshop. The children were thrilled to put on their colourful costumes and learn a traditional Indian dance routine, which they then performed for their friends at the end of the session. This gave the children the opportunity to develop their dance skills such as flexibility, co-ordination, muscle memory, movement patterns and counting to the beat as well as promoting SMSC and our British Values.</p>
<p>Sports Morning</p>	<p>To increase participation in PE and Sports so that all pupils develop healthy lifestyles and reach performance levels that they are capable of.</p> <p><i>We aim to reintroduce our annual sports morning for Reception, year 1 and year 2 at our local park, Victoria Rec. This will provide our children with a fun event as we approach the end of the academic year that allows us to welcome families, encourage sportsmanship, perseverance, teamwork and physical development. Children spend some time in their classes preparing for these activities and are beginning to acquire the skills that are needed to be successful in a competitive event. This year we plan to alter the organisation of our event, which will require some additional time from the PE leader.</i></p>	<p>£170.54</p> <p>This year the children from Reception to Year 2 travelled up to Victoria Park to take part in our Sports Morning event. This has previously been an annual event, which was unable to run due to the Covid19 pandemic. We were delighted to be able to bring back this fantastic event, which was enjoyed by all. Parents, were able to spectate as the children were encouraged to demonstrate their developing skills whilst also successfully working in teams, being supportive of each other, as well as showing determination and perseverance. All children engaged in a variety of sporting events which required them to use their throwing, catching, aiming, jumping,</p>

		<p>running, balancing and fitness abilities. The event had a competitive nature that allowed the children to earn points for their team which is in line with the national curriculum aims for PE education. All children were rewarded for their sportsmanship and hard work with medals and ice-lollies.</p>
<p>Sports Impact Conference</p>	<p>To increasing staff confidence and subject knowledge.</p> <p><i>It is essential to continue developing staff confidence and subject knowledge, by attending this conference we can learn new teaching techniques, ideas, successful lesson plans/schemes. We will get the opportunity to liaise with other teaching staff to see how PE runs in other schools; as well as being introduced to key initiatives in sport and physical education that the government are currently focusing on so we can implement these into our own school settings.</i></p>	<p>£125</p> <p>I had the pleasure of attending the Sports Impact Conference as Maple Infants' School PE Leader. Alongside extending my own professional development, this conference also allowed me to interact with other PE leaders.</p> <p>This conference run a number of different eye-opening workshops that I was able to take key advice and ideas from including tackling obesity, encouraging girls to take part in sports, new technologies that can be used in PE teaching and an Ofsted deep dive into PE. This gave me the opportunity to reflect on PE at Maple; I was able to identify many successful areas of the subject and areas which I would like to develop further. From this session I was able to inform my future action plan for PE and continue the developmental journey of giving the best offer possible to the children at Maple.</p>

<p>Country Dance Festival</p>	<p>To increase participation in PE and Sports so that all pupils develop healthy lifestyles and reach performance levels that they are capable of.</p> <p><i>We aim to take a group of Year 2 children to this event to increase participation in a wide range sporting activities. This event will be reintroduced after the Covid19 Pandemic and will be a new opportunity for many of our children. This is a fun and engaging event that requires us to work alongside many other schools in the Kingston borough.</i></p>	<p>£422.41</p> <p>We were very happy to take 34 Year 2 children to the Kingston Country Dance Festival. This has previously been an annual event, which was unable to run due to the Covid19 pandemic. Our children volunteered to take part in this brilliant event and spent 10 weeks rehearsing, preparing their routines and developing balance, co-ordination, control, movement repetition as well as awareness of space, timing and rhythm. The children had to memorise 5 different routines that varied in speed and style. They learnt to dance with a partner as a duo, then regularly swapped partners and even danced as a small group. This event also promoted many SMSC values. The expenses include participation in the event, the coach for the children to travel to and from the event and some new accessories for their costumes. <i>'The Country Dance was so much fun, there were so many people watching us perform. I liked that my Mum and Dad came to watch me, and I got to dance with my friends. I am sad that Country Dance club is finished now because we learnt so many cool moves and I practiced so much I want to do more'. – Year 2 pupil</i></p>
<p>Safe Practice in Physical Education, School Sport and Physical Activity (PESSPA)</p>	<p>To secure and enrich the quality and breadth of PE and sport provision <u>and</u> to increasing staff confidence and subject knowledge.</p> <p><i>Maple Infants' School ensures that we have the most up to date policies and risk assessments to ensure the safety of the children in our care. By</i></p>	<p>£60.13</p> <p>As PE Leader, I spent some time this year updating our PESSPA policy and risk assessments for inside and outside PE. To ensure that I completed this task to a</p>

	<p><i>purchasing this book, we have access to a high quality resource that can be used to support us in giving the best duty of care to our children and their families possible.</i></p>	<p>high standard we invested in the latest Safe Practice book from the Association of Physical Education. This book enabled me to improve my own subject knowledge around safety and complete a thorough and in-depth policy for us to adhere too. This policy has been shared with all of our staff and governing body to ensure that practice within our school is of a high quality and has been appropriately risk assessed.</p>
<p>£17, 149 carried forward from 2020/21 academic year. Total to spend for 2021/22 = £34,919</p>		
<p>The total spend for academic year so far: £ 15,228.60</p> <p>Remaining budget for 2022/23: £ 19,690.40</p>
